PROFESSIONAL SUMMARY

Computer Science and Engineering graduate (2026) seeking an entry-level AI Engineer role. Built four Generative AI applications using Python, FastAPI and React, covering Retrieval-Augmented Generation (RAG), multi-agent workflows, local Large Language Models (LLMs) and structured summarization.

TECHNICAL SKILLS

Programming / Web: Python, SQL, React, Node.js, Express.js, REST APIs

Generative AI / RAG: LangChain, embeddings, semantic search, prompt engineering, ChromaDB, SentenceTransformers

Agents / LLMs: LangGraph, CrewAI, Model Context Protocol (MCP), Claude API, Llama 3.2, Ollama

Frameworks / Tools: FastAPI, Pydantic, LangSmith, Git, Postman

PROJECT EXPERIENCE

AgentForge AI — Multi-Agent RAG & MCP Platform

• Developed a Python, FastAPI and React platform for document question answering and multi-agent workflows.

• Used LangGraph to route requests to document retrieval or MCP tools; coordinated CrewAI agents for research, analysis and review.

InterviewForge AI — Local RAG Interview Coach

• Built three learning modes with Python, FastAPI and React: document question answering, mock interviews and Python study.

• Implemented PDF ingestion, chunking, embeddings and persistent ChromaDB storage; retrieved the top 3 chunks to ground Llama 3.2 answers via Ollama.

• Implemented adaptive 5-question practice sessions with scores from 0 to 10, feedback and hints.

NewsPulse — AI News Briefing App

• Built a React, Express.js and FastAPI app that deduplicates RSS articles, groups related headlines by meaning and generates source-attributed briefings with LangChain and Claude.

• Implemented controlled concurrent Claude API calls, Pydantic validation for structured outputs and optional LangSmith tracing for debugging.

AI Meeting Minutes Summarizer

• Integrated Claude with FastAPI and Express.js to convert transcripts in 3 formats (TXT, VTT and JSON) into concise meeting notes.

EDUCATION

B.Tech, Computer Science and Engineering | Vel Tech | 2026 | GPA: 7.0/10

Diploma, Mechanical Engineering | S.M.V.M. Polytechnic, Tanuku | 2023 | 67%

CERTIFICATIONS

Introduction to LangChain (LangChain Academy) | Generative AI Fundamentals (Databricks) | Introduction to Model Context Protocol (Anthropic) | Introduction to LangGraph (Python)
